

PARTNERSHIP AGREEMENT

Page | 1

The Partners hereby enter into this Partnership Agreement for the purpose of jointly carrying out activities for the preparation of Innovation Development and Effectiveness in the Acquisition of Skills – IDEAS PROJECT proposal and if selected, realise its implementation. This proposed project is hereinafter referred as 'Project'

By signing this partnership agreement, the Partners commit to the following:

- All Partners agree to work exclusively together for the development of the concept proposal stated below and do not enter into any Partnership Agreement with other entities for the realization of a concept proposal for the same Call for Proposal.
- The Project will be a digital skill acquisition programme and will be characterized by the following:
 - contribute to the development of digital literacy, digital basic skills, digital specialized skills, e-lancing, e-entrepreneurship and/or e-marketing
 - aim to provide training services, potentially complemented by wrap-around services to improve marketability of skills;
 - have a strong gender component and support digital skills development of women and disadvantaged youth;
 - provide clear linkages between the training and employment opportunities, and also increased earnings through entrepreneurship and self-employment;
 - be responsive to industry skills gaps;
 - provides soft skills, communication and confidence building training;
 - have a sound sustainability prospect: preferably support the emergence of digital skills and market development programs and hubs that will remain operational after the end of the project.
- All Partners will uphold the principles of good partnership practice and build on previous experience in implementing joint activities.
- Each Partner agreed to assume the following roles during the project:

Lead Partner – Digital Dreams Limited

- Become the Project Lead and provide the necessary leadership to bring the Project to fruition
- Develop the curriculum and key project milestones and timeline
- Creation of training materials and learning management system
